IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 23, 1994

Mr. BAESLER introduced the following bill; which was referred to the
Committee on Agriculture

A BILL

To authorize the Secretary of Agriculture to establish a pilot program to evaluate the feasibility of county-based rural development boards, develop a strategy for adoption of national rural development goals and objectives, establish a training program for local county board leaders, providing roles and responsibilities for State rural development councils, substate regional organizations, and 1862 and 1890 land grant institutions, and establish a grant program for financing various rural and small community development initiatives, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. FINDINGS AND PURPOSES.**

4 (a) FINDINGS.—The Congress finds that—

5 (1) rural America has serious problems in need
6 of attention, including lack of off-farm opportunities,
7 lack of adequate capital for investment, nondiversity
8 of agriculture economy, declining farm work force,
9 outmigration of rural youth to urban centers, inad-
10 equate leadership development, and persistent pov-
11 erty;

12 (2) Federal and State policies dealing with non-
13 farm rural issues are fragmented;

14 (3) farming remains a most important element
15 of rural life, but a successful national rural policy
16 must address the entire spectrum of social, economic
17 and cultural needs of citizens living in rural
18 America;

19 (4) the creation of jobs and expansion of exist-
20 ing businesses are of vital importance to the long-
21 term stability of rural life;

22 (5) Americans have a right to choose a rural
23 life, beyond just farming, and consisting of a life of
24 opportunity in small communities with continued ties
25 to the land; and

1 (6) because each rural area across America is
2 unique, there is no solution which can equally ad-
3 dress all rural areas, and a Federal initiative in
4 rural development is dependent on creating a mecha-
5 nism which allows for locally determined initiatives,
6 strategies, and solutions.

7 (b) PURPOSES.—The purposes of this Act are to—

8 (1) establish a pilot program—

9 (A) to create and evaluate the feasibility of
10 using county-based rural development boards as
11 the local organizational entity through which
12 the United States Department of Agriculture
13 will facilitate funding of rural development ini-
14 tiatives;

15 (B) to determine whether county boards
16 can be used to create an understandable initia-
17 tive under which a comprehensive national pol-
18 icy for rural development can be devised, and
19 create a long-term viable local constituency for
20 development by tapping the energy and talent
21 at the local level;

22 (2) establish a time frame, process, and evalua-
23 tion procedure for the development of clear national
24 rural development goals;

1 (3) provide for (through the encouragement of
2 funding) an expanded and more focused role in rural
3 development for Land Grant Institutions both the
4 “1862” and “1890” colleges and universities;

5 (4) create a grant program to provide funding
6 for rural development projects;

7 (5) create a national training program bringing
8 the expertise and knowledge of officials of the De-
9 partment of Agriculture directly to local county de-
10 velopment board leaders, State rural development
11 councils, substate regional organizations, and 1862
12 and 1890 land grant institutions at the start of the
13 pilot project; and

14 (6) provide for a coordinated program of co-
15 operation among the Department of Agriculture,
16 State rural development councils, substate regional
17 organizations, and local boards.
